Dear Jimmie,

I received the announcement of your graduation, and was much pleased to receive it. It is obvious that the course was hard and required both intelligence and hard work, so you are to be dourly congratulated.

When I write to the other men in the armed forces that you know, I'll pass the word along in case they haven't heard directly from you.

You will be interested to know that Priscilla and I went in to East Boston to go to Danny O'Neil's going away party. We were

invited to the home first, and went from there to the party. A large number of Salem students were there, particularly those who had been in his class. He left for Notre Dame, Indiana on Friday. It will notably be eight years before he is ordained.

Do you remember Jack Guilford - a nephew of ours? He is stationed at

Provincetown in the Coast Guard.

Carroll Keely's mother was at Danny's party. She is going out to see Carroll in Denver very soon. Carroll expects to be sent in to foreign service very shortly.

Thanks again for your announcement. When your address is changed, be sure to let me know. See notify the Defense Comm. at school, if you don't reach there directly.

Sincerely
Edna McGlynn
