7 December [1944]

Dear Miss McGlynn:

Just a few lines to let you know how sorry I was to learn about your recent illness - I'm very glad to learn that you are back "on the job."

Glad that you finally received the book and that you enjoyed it. I want you to know I really got a "big kick" out of sending it. (if you will pardon the expression) - the lectures were really useful and it was a surprise to me to learn how many of the paintings I could recognize - it was an enjoyable

[Page 2]

experience and I truly wish that some day you will be able to see the "originals" I know you will thoroughly enjoy them.

I've still only one V-mail from Bob and I'm about to disown him - we two are going to have to stick real close together now with Ledo gone - which reminds me - I had a letter from the Mrs. recently. She told me Ledo was just ready to graduate and they expect to spend the holidays at Revere- it will certainly be a homecoming would like to be there to see I t- but rite now I don't think I can make it.

I've written to Dan Parks - and hope to see

[Page 3]

him soon - I should have written to him before but kept putting it off - None of the other lads have been heard from including Big Edward.

My mother sent me a blank postal card that she had received from the college - I suppose you are familiar with it. The one on placement was nice to see the Mr. on the front - I'm afraid at the present time I'm unavailable.

The weather here continues molta [very] wet. Though temperatures have not gone too low. This rain certainly makes a quagmire of the roads etc. over here to say nothing about what it does to our campsite.

From the looks of things in Greece it begins to look like a few of our fears are starting to materialize - its a sad state of affairs - the ole Balken tinder box again.

I'm looking forward to the next news letter - it is certainly keeping us in touch with most of the gang. How goes the Debating Team?

Sincerely,  
John
